Guardianship Services

Balliliesk International Ltd. offers levels of guardianship. Please see a brief overview of these listed below. A fully-comprehensive agreement can be provided detailing our responsibilities under this contract.

Platinum

For those parents who do not live in the UK and wish for the guardianship to act on their behalf in a number of ways. Guardianship involves the care of the child when they are not at school by providing a caring guardian family. The guardian family maintains a typical involvement with their school lives, such as going to parent teacher's meetings & school events, assisting with the purchase of school uniform and acting as a support system for that child during their time abroad. The child can expect the agency's full support 24 hours a day.

Gold

For those parents who wish for shared responsibility, whereby a relative or friend, resident within the UK, takes joint responsibility for that child. The friend/ relative works with the guardianship agency to ensure that all guardianship requirements are fulfilled. This level of guardianship is also available to those parents keen to assume responsibility by dealing directly with the school on all matters. Gold level Guardianship ensures joint responsibility and the availability of student accommodation during the schools' half-term.

Silver (16 -18 year olds)

For those students who have parental permission to make their own arrangements for exeat and half-terms. However, in the event guardianship is required, a guardian family will be found, provided one week's notice is given. The student will make their own arrangements with regard to airline tickets, airport transfers, visa extensions, hotel or Bed & Breakfast accommodation, or holiday programmes.

Emergency

Emergency guardianship is available for weekend use only once a term. It may also be used for suspensions/ expulsions during term time.

*"It is so wonderful to have someone you can rely on, so far from home."
Mrs. Mizutani, Japan.*
